

# Ultrasonic Cleaner for Anilox Rollers & Rotogravure Cylinders

In high-precision printing, clogged cells lead to uneven ink transfer and costly downtime. Our industrial ultrasonic cleaner offers a non-destructive, deeply penetrating solution, safely removing dried ink, coatings, and adhesives from the deepest cells.

## PROVEN CLEANING PERFORMANCE

## CORE FEATURES

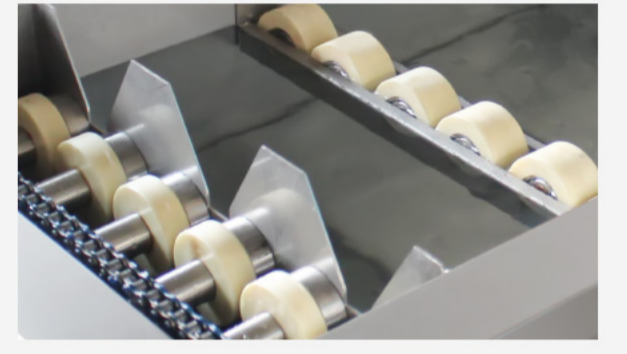

### Heavy-Duty Stainless Steel Build

Thick, cavitation-resistant stainless steel tank built to withstand harsh cleaning agents and continuous industrial operation.

### Continuous Rotation Mechanism

Motorized rotary driver ensures steady, continuous turning during the cycle, guaranteeing 360° uniform cleaning with zero blind spots.

### Safe & Non-Destructive Process

Precision-tuned frequency and power control prevent pitting or chipping on ceramic/chrome surfaces, extending roller lifespan.

### Eco-Friendly & Cost-Effective

Slashes chemical consumption and manual cleaning time from hours to minutes, maximizing your pressroom uptime.

## TAILORED TO YOUR EXACT SPECIFICATIONS

Every printing line is unique. We fully customize the ultrasonic cleaner based on your roller sizes, weight, and daily throughput.

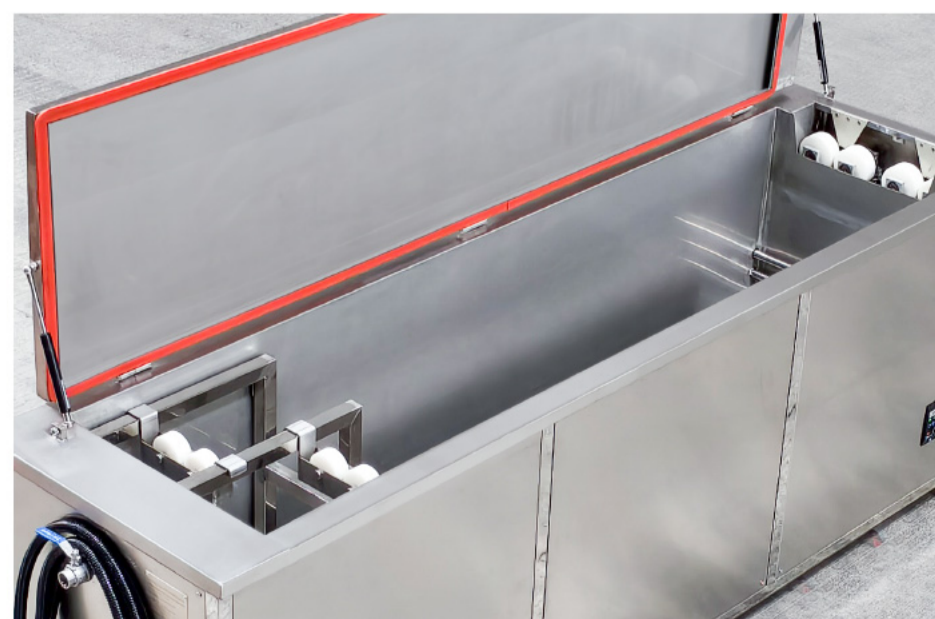

### Compatible Roller & Component Types

<b>Ceramic Anilox Rollers</b> <ul style="list-style-type: none"> <li>Narrow Web</li> <li>Wide Web</li> <li>Corrugated</li> </ul>	<b>Chrome Anilox Rollers</b> <ul style="list-style-type: none"> <li>Narrow Web</li> <li>Wide Web</li> <li>Corrugated</li> </ul>	<b>Rotogravure Cylinders &amp; Sleeves</b>	<b>Applicator &amp; Glue Rolls</b>	<b>Doctor Blade Chambers &amp; Ink Fountains</b>	<b>Offset Coating &amp; Varnish Rollers</b>

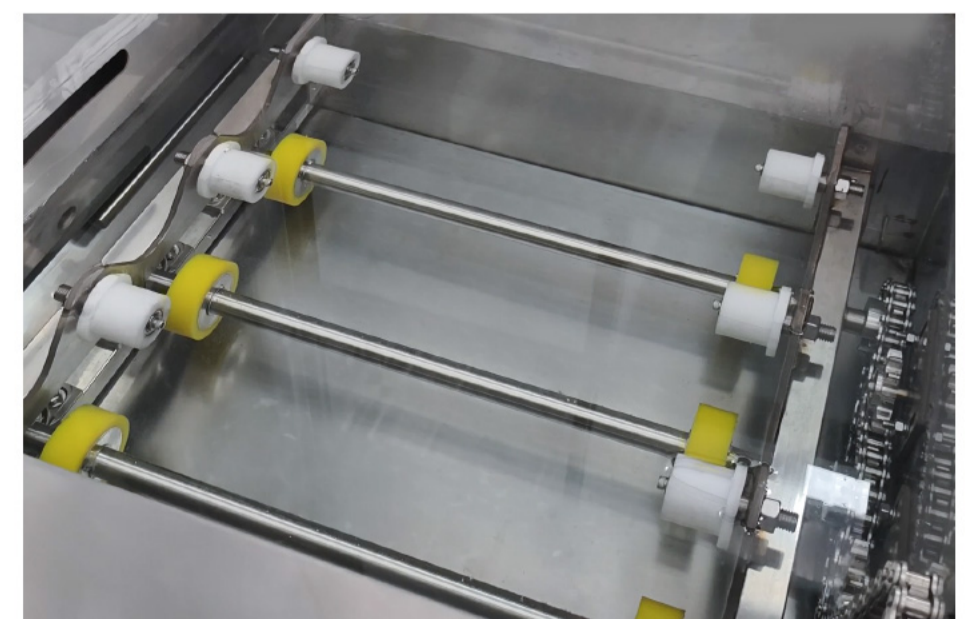

## CUSTOM CONFIGURATIONS IN ACTION

▲ Single-Spindle Setup

▲ Dual-Spindle Setup

▲ Triple-Spindle Setup

Multi-spindle configurations available upon request
