# INDUSTRIAL ULTRASONIC CLEANING SOLUTIONS

Cost-Effective Equipment | Customized Solutions | Reliable Performance

CE RoHS FC PSE Ex

**2007**  
Founded

**100+**  
Export Region

**300+**  
Patent Certifications

**35,000 m<sup>2</sup>**  
Manufacturing Base

**65+**  
R&D Engineers

## MANUFACTURING CAPABILITY

Class 100  
and Class 10,000  
Cleanrooms

Advanced  
CNC  
Machining

Professional  
Assembly  
Lines

Comprehensive  
Quality  
Inspection

## WHY CHOOSE SKYMEN

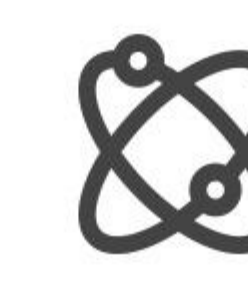

Factory  
Direct  
Supply

Cost-Effective  
Industrial  
Solutions

Tailor-Made  
Cleaning  
Systems

Reliable Performance  
for Continuous  
Production

Lower Operating  
& Maintenance  
Costs

Professional  
Engineering  
Support

Designed to deliver reliable cleaning performance with optimized investment.

## FIND THE RIGHT CLEANING EQUIPMENT

### Single Tank Ultrasonic Cleaner

Reliable everyday cleaning with lower investment

- Cost-effective for general industrial cleaning
- Easy operation and low maintenance
- Compact design for flexible installation

👍 **Recommended for :**  
Small Workshop / Low Investment

### Multi-Stage Ultrasonic Cleaner

Higher cleaning quality through an integrated process

- Integrated cleaning, rinsing and drying
- Flexible configuration from 2 to 7+ tanks
- Improved cleaning consistency

👍 **Recommended for :**  
Precision Parts / Higher Cleanliness

### Rotary Basket Spray Cleaning Machine

Excellent for heavy oil and grease removal

- Powerful high-pressure spray cleaning
- 360° rotary basket for uniform results
- Effective removal of stubborn contaminants

👍 **Recommended for :**  
Heavy Oil Parts / Machined Components

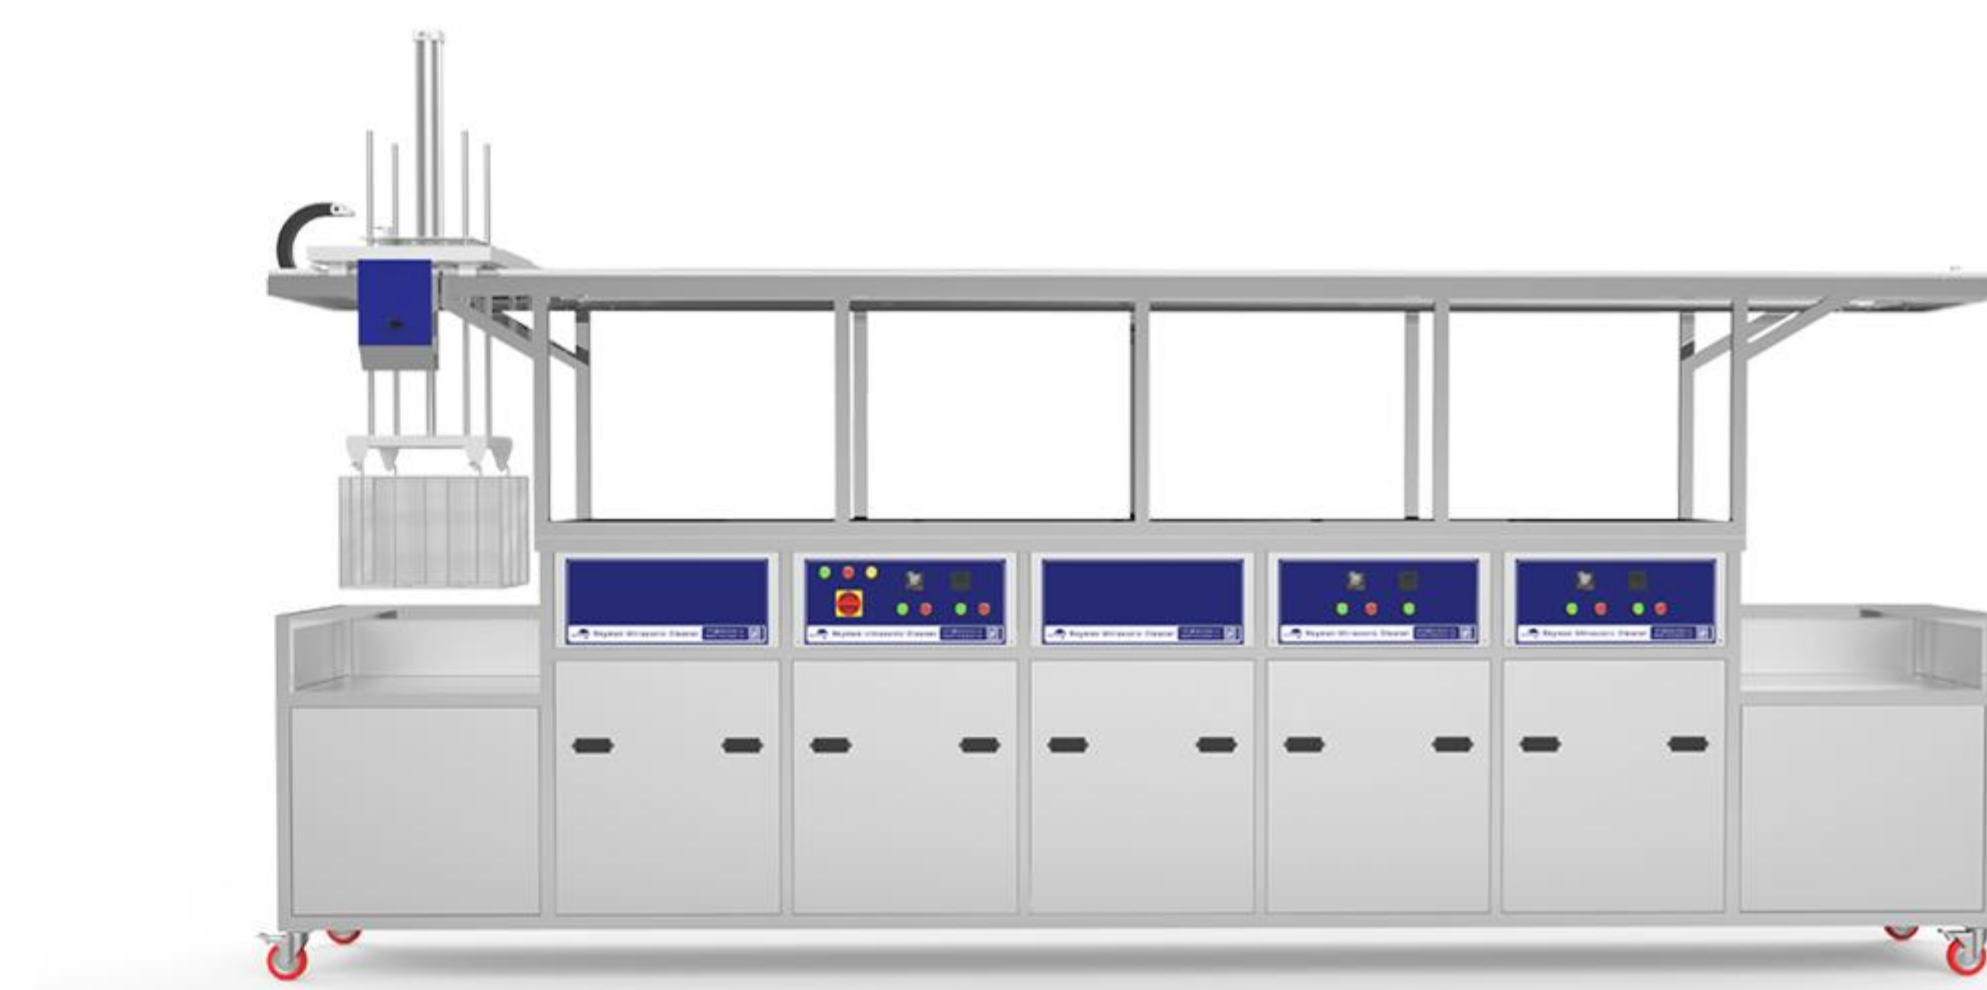

## Semi-Automatic Ultrasonic Cleaning Line

Boost productivity with flexible automation

- Improved productivity with lower labor
- Easy operation and maintenance
- Flexible workflow for different workpieces

**Recommended for :**  
Medium Production / Multiple Product Types

## Automatic Ultrasonic Cleaning Machine

Built for continuous industrial production

- Automated production process
- Stable and consistent cleaning quality
- Customized cleaning processes based on requirements

**Recommended for :**  
High-Volume Manufacturing / Continuous Production

### Not sure which machine fits your application?

Our engineers are ready to recommend the most suitable solution.

## INDUSTRIES WE SERVE

Auto Parts

Precision Machining

Semiconductor

Optical

Aerospace

Rail Transit

Medical

Power & Energy

Advanced Materials

## REAL CLEANING RESULTS

Delivering Consistent Cleaning Quality for Every Production Process

## CUSTOMIZED FOR YOUR PRODUCTION

**Every production process is unique.**

We design and build the most suitable cleaning solution based on your:

|   |                |   |                    |   |                     |   |                      |   |                |
|---|----------------|---|--------------------|---|---------------------|---|----------------------|---|----------------|
| 1 | Workpiece Type | 2 | Contamination Type | 3 | Production Capacity | 4 | Cleanliness Standard | 5 | Factory Layout |
|---|----------------|---|--------------------|---|---------------------|---|----------------------|---|----------------|
